

JPRS 75007

25 January 1980

Reference Aid

Current Chinese Serial Publications

1980 Edition

FBIS

FOREIGN BROADCAST INFORMATION SERVICE

NOTE

JPRS publications contain information primarily from foreign newspapers, periodicals and books, but also from news agency transmissions and broadcasts. Materials from foreign-language sources are translated; those from English-language sources are transcribed or reprinted, with the original phrasing and other characteristics retained.

Headlines, editorial reports, and material enclosed in brackets [] are supplied by JPRS. Processing indicators such as [Text] or [Excerpt] in the first line of each item, or following the last line of a brief, indicate how the original information was processed. Where no processing indicator is given, the information was summarized or extracted.

Unfamiliar names rendered phonetically or transliterated are enclosed in parentheses. Words or names preceded by a question mark and enclosed in parentheses were not clear in the original but have been supplied as appropriate in context. Other unattributed parenthetical notes within the body of an item originate with the source. Times within items are as given by source.

The contents of this publication in no way represent the policies, views or attitudes of the U.S. Government.

PROCUREMENT OF PUBLICATIONS

JPRS publications may be ordered from the National Technical Information Service, Springfield, Virginia 22161. In ordering, it is recommended that the JPRS number, title, date and author, if applicable, of publication be cited.

Current JPRS publications are announced in Government Reports Announcements issued semi-monthly by the National Technical Information Service, and are listed in the Monthly Catalog of U.S. Government Publications issued by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Indexes to this report (by keyword, author, personal names, title and series) are available from Bell & Howell, Old Mansfield Road, Wooster, Ohio 44691.

Correspondence pertaining to matters other than procurement may be addressed to Joint Publications Research Service, 1000 North Glebe Road, Arlington, Virginia 22201.

25 January 1980

REFERENCE AID
CURRENT CHINESE SERIAL PUBLICATIONS
1980 EDITION

The following is the full translation of a list of publications provided by the Beijing Post Office, which includes all titles available for subscription through the Beijing Post Office as of January 1980. The list is presented in order of numerical code, or index number, as in the original. The first part of the numerical code indicates the province of publication, which is provided in standard Chinese abbreviation in the second column in this translation. (These provincial abbreviations are spelled out in a list appended to the end of this reference aid, along with explanations of abbreviations in the "Periodicity" column.)

In this translation, the titles of periodicals are given first in Pinyin Romanization, then in Wade-Giles Romanization, third in English translation, and finally in Chinese simplified characters as they appear in the original. In those cases for which the Chinese provide a Latin title (mostly journals of the Chinese Academy of Sciences), that title is given in the third line. As the reader will note, newspaper titles have numerical codes that begin with odd numbers and are listed together at the beginning of this compilation; magazines have even-numbered numerical code prefixes and make up the bulk of this list of nearly 800 titles. Following the full translation, an alphabetical list of Pinyin titles is provided for cross-referencing purposes.

CURRENT CHINESE PUBLICATIONS

[List of Publications Available for Subscription through Beijing Post Office as of January 1980.
A copy of this list was recently obtained by the Publications Procurement Officer in U.S. Embassy, Beijing]
